

Be Kind

There's a lot going on that I don't understand
A lot in the world I don't know
I can't play the tuba or speak any French
Although I do know Bonjour means hello

I wish I knew all about things up in space
Like satellites and planets and more
I wish I could play in the NBA
I wish I could slam dunk a ball

C) But I can't, and probably (G/B) won't
But (G*) here is (G/B) what I (Em*)know
C) Here, is (G/B) what I (G) know

I know my times tables all the way up to 12
I even know how to read
I know dogs barks at me and that bark grows on trees
And the trees help me to breathe

Books and lizards both have tails and snakes and music both have scales
I know tadpoles turn into frogs
I know if I smell a disgusting smell
My dad will blame our dog

But I don't mean to boast
But the thing I know the most
The thing I know the most

You've got to be kind in this big old world
Yeah kid you've got to be kind
You've got to be kind in this big old world
Yeah kid you've got to be kind

C) If you know better, (G) do better
C) And no one knows better than (G) you
C) If you know better, (G) do better
C) Cos you're no better (G/B) than the things you (G) do

You could put seeds out for a bird, let people know they're heard
Maybe offer someone a drink
Tell someone that they're great, don't get upset with your mistakes
Give yourself time to slow down and think

We all share this space and not everything's a race
And sometimes kindness can get lost
Because yes it's fun to win but it isn't everything
And sometimes it comes at a cost

You've got to be kind in this big old world
Yeah kid you've got to be kind
You've got to be kind in this big old world
Yeah kid you've got to be kind
